

<u>Horizon – 'Catch-Up' Approach Action Plan Review</u>

Our Trust Vision/Aims relevant to this priority...

- The Trust is committed to providing outstanding educational experiences for each pupil. We are determined to raise aspirations, opportunities and the standards of learning for all pupils.
- We believe that even better progress and attainment can be achieved through strong collaboration. In the Horizon MAT school leaders and governors will come together to share strategic thinking and expertise. By combining talents and skills we will support each other during challenging times.

DfE guidance 17th September 2020-

- For children in nursery settings, teachers should focus on the prime areas of learning, including: communication and language, personal, social and emotional development (PSED) and physical development. For pupils in Reception, teachers should also assess and address gaps in language, early reading and mathematics, particularly ensuring children's acquisition of phonic knowledge and extending their vocabulary. Settings should follow updates to the EYFS disapplication guidance. For nursery settings and Reception, consider how all groups of children can be given equal opportunities for outdoor learning.
- For pupils in key stages 1 and 2, school leaders are expected to prioritise identifying gaps and re-establish good progress in the essentials (phonics and reading, increasing vocabulary, writing and mathematics), identifying opportunities across the curriculum so they read widely, and developing their knowledge and vocabulary. The curriculum should remain broad, so that the majority of pupils are taught a full range of subjects over the year, including sciences, humanities, the arts, physical education/sport, religious education and relationships and health education.

Accountability and monitoring-

- As with all government funding, school leaders must be able to account for how this money is being used to achieve our central goal of schools getting back on track and teaching a normal curriculum as quickly as possible.
- Given their role in ensuring schools spend funding appropriately and in holding schools to account for educational performance, governors and trustees should scrutinise schools' approaches to catch-up from September, including their plans for and use of catch-up funding. This should include consideration of whether schools are spending this funding in line with their catch-up priorities, and ensuring appropriate transparency for parents.

'Determined to provide outstanding educational experiences for every pupil'

	Action Plan for Catch-Up Funding				
Na	ame of Academy: Elburton	Primary School	Lead persor	for the school: Keith Smithers	s
Objective	Success Criteria	Actions	Staff / Date	Evaluation of impact and next steps (Spring Term)	Resources (cost/times)

1.1 Ensure
identified children
can access 1-1 and
small group read
write inc support
enabling them to
make at least
good progress.

All of the children will make accelerated progress with RWInc.

Disadvantaged children will make good progress- the gap between dis and all will narrow based on the baseline for phonics.

Baseline for year 1, 45% of children at ARE using RWI assessments. By the end of Spring term to be at least 92% (32+) in the phonics screening check. This would be significantly above national averages (2019 data)

Baseline for year 2, 47% of children are at ARE (32+ in phonics screening check.) By the end of Spring Term at least 85% will be on track for ARE in phonics. This will be tracked using phonics screening and RWI assessments.

Baseline ARE for Y1 reading – 68% Baseline ARE for Y2 reading – 69% Children will make accelerated progress to be well above national expectations KS1 in attainment for reading (73% 2019)

- Purchase access to the portal and have the necessary training for the team.
- RWI lead to attend training on how to use the RWI portal
- RWI lead to train 1-1 tuition team in staff INSET.
- Teaching team to carry out assessments of the children.
- Allocate children to 1-1 person and begin intervention on a daily basis.
- Reassess at regular intervals.
- Audit/purchase additional RWI resources to support teachers/TAs with teaching RWI across all year groups.

Read write inc lead to attend portal training (EG) – Oct 20

1-1 RWIn T/TAs to lead sessions Nov 20ongoing

Read write inc lead (EG) to assess children and analyse where support is required – Ongoing RWI lead to audit and purchase additional resources required for high quality 1:1

and group

delivered.

phonics to be

RWI School Portal has been purchased and has been used to support children working from home (during isolation periods and remote learning), as well as to support training of staff remotely. The Portal has been used to support individual children in 1:1 sessions across Y1.

EG attended training on how to use the RWI Portal effectively and provided training in a staff inset. EG also supported individuals with its use where needed.

EG has trained RK in how to use the 1-1 intervention pack for RWI. In the Autumn term, she was using this with individuals and small groups across Y1 and Y2. EG/AB and RK have organised targeted reader list and have read with these children 3-5 times a week. EL/CH and RK have organised targeted reader list and have read with these children 3-5 times a week.

Children across Y1 have been assessed regularly by the team. This has taken place in school (Sep/Nov) and remotely (Feb) for those working from home. Tailored videos have been sent to all children with a few individuals receiving

fired seed the portal the portal for the lead on use of portal the portal the portal for the lead on use of portal the po

	Ch re pla	ew book bands were issued to ensure the children are reading appropriately anded books. hildren across Y2 have been assessed egularly by the team. This has taken lace in school (Sep/Nov). Video links ave been sent to children in year 2 and the book bands were issued to ensure the children are reading appropriately anded books.	Cards (pack of 10) Wall charts Flipchart boards Total for RWI resources: £1303.34
	of the state of th	G set up a 'Book Exchange' and Oxford Owl' Logins to allow parents and all children to access reading from ome. F, Y1 and Y2 parents had the ption to take part.	
	or 1:: th or re.	G completed an audit of resources and redered further resources to allow for a reading teachers to have resources ney need without sharing. EG reganised and distributed these esources. All reading teachers have access to the resources they need eithout sharing.	
	fic us	G ordered and organised a set of non- ction books within each band to be sed by groups to allow for further eading practise across genres.	

	Baseline Y1 Reading – 45% ARE or above Y1 Spring Reading (Feb 2021) - 75% ARE or above. (Data based on RWI assessments and not PSC as children are not familiar enough with the process to complete remotely). The children that are currently working below Y1 ARE for this point in the year (25%) have all made at least 2 (some 3) terms progress in their phonics/ reading. One pupil is working significantly below expectations, but he has missed the entire Autumn Term due to hospitalisation. He was invited back to school during the remote learning period to support him. He is receiving 1:1 support for phonics daily and making good progress.
	Baseline Y2 phonics data – 47% on track for passing phonics screening. (Data based on a phonics screening check) Year 2 end of Autumn term data – 88% passed the screening (screening took place in Nov). Those that did not pass still made progress and continued to have 1:1/ small group sessions and lots of ditty time.

		Novt Stones Further DM/Lossosses	
		Next Steps: Further RWI assessment and PSC to be completed on children's	
		return to school. Children to be	
		regrouped and small, homogenous groupings to begin within second week.	
		RK will not be supporting Y1 from 8 th	
		March onwards but will continue to	
		support in Y2.	
		Targeted readers to continue in both year groups. Afternoon Speed Sound	
		lesson (5-10 mins daily) to recap, revise	
		and fill gaps in grapheme knowledge.	
		TAs to complete registration while EG/AB complete 1:1 reading/small	
		group interventions for sounds	
		between 8.30 and 8.55.	
		In year 2, TAs to complete 1:1 reading/	
		small group interventions for sounds between 8.30 and 8.55.	

Objective	Success Criteria	Actions	Staff Date	Evaluation of impact and next steps (Spring Term) Y1 and Y2 Teaching Team	Resources (cost/times)
1.2 Children in Y1 and Y2 to make accelerated progress in reading and writing.	Children in Y1 and Y2 identified as needing catch up support to make accelerated progress in reading and writing. Baseline ARE for Y1 reading – 68% Baseline ARE for Y2 writing – 62% Baseline ARE for Y2 reading – 69% Baseline ARE for Y2 writing – 68% Children will make accelerated progress to be well above national KS1 expectations in attainment for reading (73% 2019) and writing (69% 2019)	 Appoint an additional teacher to support, in the first instance, Y1 and Y2 children. Class teachers to timetable the designation of additional teacher with a clear focus on both the class/additional teachers' roles. To include specific children/groups and times. Catch up teacher and class teacher to support children 1:1 and in small groups. Catch up teacher and class teacher to pre teach lessons in order for greater understanding in class. Catch up teacher and class teacher to make regular assessments to identify specific gaps in learning and teach carefully planned sessions to address misconceptions. Through writing conferencing, raise confidence for groups and individuals of children. 	Rachel Kenny appointed Oct '20 to start Nov '20 Y1/Y2 teachers, English lead and RWI lead to deploy additional teacher Oct 20 (in the first instance) Review deployment throughout the Aut and Spr term through regular assessments. SLT to monitor the deployment of additional teacher regularly	AB/EG organised a timetable for additional support with specific times, children and support needed. This involved RK covering both Y1 class teachers for 1 afternoon each to allow for intervention work to take place with targeted Y1 pupils. AB and EG focused on RWI phonics interventions. RK worked for 2 afternoons a week with 1:1 and small groups. She completed 1 afternoon of simple sentence writing using the 'hold a sentence' technique from RWI and 1 afternoon of letter formation (using RWI ditties) and applying this when writing words. Y1 Baseline – 62% - 0% working above. Y1 Autumn – 66% - 7% working above. The data does not show a huge increase in children at Y1 expected expectation. However, as with phonics data, the children have made several terms worth of progress covering foundation stage objectives and early Y1 objectives in writing. They have grown in confidence and are now all able to independently write a dictated simple sentence. Most are able to write simple	£14,783.06 cost of teacher (inc. NI/pension) Nov 2020 to the end of Spring Term 2021

	sentences using their own ideas and some are beginning to use the conjunction 'and' to extend sentences. Focus will be on embedding spelling patterns, stamina for writing and punctuation.	
	Y1 Spring (unable to assess virtually due to unknown levels of support).	
	Children to be assessed on their return/gaps reviewed. Intervention timetable to be created after assessment. This will be completed by TAs as RK will not be working with Y1 from 8 th March 21.	
	EL/CH organised a timetable for additional support with specific times, children and support needed. This involved RK taking individuals or groups of children from both year 2 classes. Interventions took place with targeted year 2 pupils. The focus was placed on phonic interventions as we had the phonics screening to work towards.	
	RK heard targeted readers from both year 2 classes every morning between 8.30 and 8.55 and also assessed their levels and moved children up a band if needed. She completed 1:1 phonics sessions with two particular children	
	and also group sessions following that. RK worked with small groups to support	

Objective	Success Criteria	Actions	Staff / Date	Focus will be on embedding spelling patterns, stamina for writing, punctuation and using more adventurous vocabulary. A new intervention timetable to be created after assessment. Evaluation of impact and next steps (Spring Term) Y3 and Y4 Teaching Team	Resources (cost/times)
				of 'pinny time' with targeted children. Writing data: Year 2 baseline – 68% expected level, 3% working above We do not have data to compare as the children will be assessed when the return to school. However, as with the phonics data as shown above, the children have made huge progress with their reading and phonics abilities. The children have grown massively in confidence with both reading and writing. All children can write independently to some extent and some are beginning to write more independently just with initial support for ideas.	
				building simple sentences but the focus became heavily on phonics interventions. She also carried out a lot	

1.3 Targeted children in Y3 and Y4 make accelerated progress in reading and writing through daily 1:1 support.	Individual children in Y3 and Y4 identified as needing catch up support to make accelerated progress in reading and writing to close the gap with 'all' children.	 Appoint a Fischer Family Trust Wave 3 early intervention teaching assistant to work 1:1 with targeted children. FFT TA to deliver a daily Reading/Writing Recovery programme 4 times a week. Teachers in Y3 and Y4 to identify the children that require additional reading and writing support through regular assessments. 	Employ FFT TA Nov 2020 (KS) FFT TA to lead intervention programme daily 4 times a week Class teachers to identify children requiring support	In the 6-week window of the FFT intervention, five children across 3NG and 3JH were selected and received 1:1 focused teaching in reading and writing . The children responded and engaged very well in the interventions. However, through the evolution of the recovery programme each child's intervention was tailored and bespoke to their specific needs in order for the children to make their required progress. The impact of the FFT intervention has certainly moved some of the identified children forwards with confidence within writing and reading comprehension. Although a mitigating factor that needs to be recognised, which would have interrupted the recovery programme, was the two-week period of self-isolation in Year 3 due to Covid in December 2020. Words Per Minute (WPM) 3JH — — — WPM scores in early Oct 2020 — (8), — (53), and WPM scores in Dec 2020 — (81), — (64). 3NG — — — WPM scores in early Oct 2020 — (61), — (42), — (21), and WPM scores in Dec 2020 — (71), — (53), — (43).	£4365.80 for the cost of FFT reading recovery TA Nov 2020 - August 2021
----------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------

	Regarding the next steps upon the children fully returning to school, the selected children will be reassessed and the FFT TA and Y3 teachers will customise the future teaching to suit the children's individual needs.
	Summer term 2021 – 3NG to host a SCITT student where upon NG will provide an extra capacity to impact the FFT reading/writing recovery programme.
	One child in year 4 (MT) was selected to receive FFT intervention for reading and writing. This had a positive effect on the child's confidence and she really looked forward to these tailored sessions. WPM scores increased from 10 in
	September to 27 in December. Due to the limited length of intervention time and subsequent lockdown, it would be hard to measure whether swriting confidence had been affected; by the end of the autumn term, was working towards
	ARE and required daily conferencing to support her with her writing – if support were to continue during the remainder of the spring term, I'm sure this would support 's confidence in

				addition to the support she receives in class.	
Objective	Success Criteria	Actions	Staff / Date	Evaluation of impact and next steps (Spring Term) Emma Marriott – English Lead	Resources (cost/times)
1.4 Children from Y2-Y6 have access to Accelerated Reader to ensure progress and attainment for all children in reading.	All children in year 2-6 to have reading books which at the appropriate age and stage of their reading journey. Rigorous and regular assessments will ensure children have reading books that challenge and extend fluency and comprehension. Reading progress for all children will be evident in the termly data drops. Gender gap between children will narrow in reading for Y5 and Y6 to be below 10%. Y5 – 19% current gap Y6 – 24% current gap	 Accelerated reader subscription to be purchased for all children from Y2-6 Ensure reading books are available and in the accelerated reader scheme for all year groups. Train staff in year groups that have not used accelerated reader Inform parents of how to access accelerated reader at home to complete quizzes Purchase additional reading books to support the accelerated reader programme across the school 	HS/EM (Y2 Oct 20. Y3-6 Spring Term) EM EM Class teachers/EM	HS / EM have renewed the subscription for the Spring Term as AR has been used effectively in promoting reading and supporting reading throughout the school. Y2 books have been labelled and are ready for the children to be assessed and allocated books when the return on 8 th March. The January lockdown has meant that we could not assess the children accurately whilst remote learning was taking place. This assessment is a priority for Term 4. Big Cat scheme books have been banded and will be used by the FFT TA to support reading of targeted children in Y3 and 4. Audit of reading books and assessment of children's reading highlighted gaps in Y3 and 4 for readers on AR bands 1 – 3. £400 worth of books have been purchased to support readers working below ARE expectations. These have been banded and are being used to support these learners.	Subscription renewal in the Autumn Term (Y2) and Spring Term (Y3-6) £6 522.00 Additional books to support Accelerated reader £1000

	Further gaps in materials at AR 6+ have been identified and challenged books have been ordered for these higher ability readers including archaic texts. EM has allocated £150 to this collection of books.
	EM will look at purchasing additional books for the new library upon completion and will organise a fundraising scheme for this. She has already raised a quote from Peters for books that raise issues, cover a range of multicultural backgrounds and focus on breadth across the curriculum using the CLPG book lists. This quote is for £500.
	EM provided training for staff who had been on maternity / new to Year groups in Term 1 and 2. Further training will be given to Y2 staff before children return to school on the 8 th March.
	Information about the AR platform has been shared with parents on the school website and through letters during this period of remote learning. A high percentage of children are engaging with AR at home.
	During remote learning, a book exchange was established to enable children to have access to reading books.
	Gender Gap with percentage of boys achieving ARE in Reading has increased slightly in Years 4 (66 – 75%), 5 (72 –

				81%) and 6 (60 – 66%). This shows that support such as Daily Reading and carefully selected HiLo reading books with a boy focus is helping to close the gap. EM will purchase further HiLo books for Y5 and 6 to further develop this.	
				Priority on return to focus on Y6 boy readers as 66% currently on track to achieve ARE. Also, Y3 the percentage predicted to secure ARE is 62%. The FFT TA 1:1 reading intervention targets this group of boys and this will be a further priority in March 2021. Two STAR assessments have been completed and data used to accurately match book band to children's reading ability. One will take place upon the children's return as a benchmark for	
Objective	Success Criteria	Actions	Staff / Date	Evaluation of impact and next steps (Spring Term) Y6 Teaching Team	Resources (cost/times)
1.5 Targeted children in Y6 to make accelerated progress in Spelling Punctuation and Grammar (SPAG) and maths	67% children at ARE in maths in the baseline assessment. 80% to be at ARE at the end of KS2. 54% children at ARE in SPAG in the baseline assessment. 78% to be at ARE at the end of KS2.	 Purchase two computers to support teaching and learning. Link one computer with the interactive board in the staff room. Ensure that the staffroom learning area has effective ICT hardware for the TA to lead high quality learning to small 	Daily support from KR and HP	SNIP spelling intervention has been set up for a group of learners in Y6 identified through assessments as having weaknesses in spelling. This has continued throughout the period of remote learning via TEAMS using this new software. This is for a group of boys as assessment has identified a gender gap in terms of attainment in SPAG.	Fujitsu ESPRIMO Q558 Desktop Computer - £367.44 x 2 Total £734.88

groups of targeted children daily. • Teachers to identify the children requiring additional support through regular and ongoing assessments. • Children to have 1:1 and small group support from a TA using daily	The interactive board and new computers have been used daily during remote learning to provide bespoke remote English and Maths learning through live TEAMS lessons and 1:1 tuition throughout Term 3 and 4 for 3 x Y6 children and 1 x Y5 child. This mirrored the approach in the Autumn term were personalised lessons were given using the interactive board in the staffroom. Additional children have been identified through a TOWBANS assessment (Jan 2021) and have been given maths intervention through Power of Two daily. This has been done in school and via TEAMS using this software. During Term 3 and 4, 1:1 and small group intervention has taken place to support groups of learners. Daily lessons have taken place in English and Maths for those learners in school and they have been taught in sets where the class teacher or TA takes either the HA/ MA group or the LA group to support learning. This was necessary due to a large number of children in the Educare group being vulnerable and having significant gaps in their learning.
	Assessments in all subjects haven't been possible due to Covid restrictions but will take place once the children return to school.

				High numbers of children have been fully engaged with the remote learning package. Misconceptions have been dealt with through TEAMS sessions with CT / TA and child as needed. Maths curriculum adapted due to misconceptions and topics such as Fractions will be taught when children return to best support the needs of the children.	
Objective	Success Criteria	Actions	Staff / Date	Evaluation of impact and next steps (Spring Term) YF Teaching Team	Resources (cost/times)
1.6 Secure high quality provision and approaches for oracy across the Foundation Stage	Baseline assessments show that there are; • 14/30 chn (FCC) 47% • 12/29 chn (FSJ) 41% • Cohort 44% Of children that have Speech and language concerns or/CLL difficulties.	 Invest in resources to enhance imaginative, small world play. Language to be modelled and scaffolded in order to promote and support oracy. Children to be expected to speak in full sentences. Ensure there is strong oracy provision in the learning environment which will encourage talk and language development. Continue to develop the use of 'Helicopter Stories' and storytelling time as part of the daily provision. 	CC to lead All Foundation staff to implement on a daily basis	Resources purchased for small world play. Fairy garden, wooden shapes and blocks, manipulatives for maths, tens frames, outside new tuff spot stands and outside wooden house/ stand for small world play. FSJ classroom adapted to include larger small world area to encourage talking through play. Talk encouraged through reading areas with good quality texts/ puppet theatre, home corner, small world provision, children accessing message centre and leaving secret messages for their friends to find and read. Rolling snack station to encourage talking. Shop keeper role play. Frequent tapestry time where children can share their home news and parents encouraged to upload photos. All adults	Wooden frame for tough trays Wooden construction blocks Small world resources to include; people, animals, dinosaurs, reptiles, enchanted house £1280.49

				uploading their weekend news as a starting point of conversation. All adults modelling full sentences and good language and insisting on children speaking in full sentences during play and whole class work. My turn your turn Both during direct teaching in literacy and maths. To continue to use cued articulation doing the teaching of phonics and in freeflow. NELI assessments started with children in educare. LS taken part in online training and will be implementing intervention when children return.,

			Baseline ARE 67%
			Autumn ARE 74%
			Nearly all year groups show that as of Spring 2020, lockdown affected the children's ARE data detrimentally. Autumn Term analysis of data shows, even though year groups dipped, they have risen again to almost pre lockdown levels. (Y5 one child as an outlier has affected this data)
	Maths lead to support staff across		
	school to ensure there is high quality		PA has led two whole staff Maths
	mastery teaching including		INSETS across the Autumn Term 2020
	manipulatives.		remotely. These have focussed upon the Ready to Progress Guidance
			released by the DfE and the use of
			Manipulatives and Representations.
			Each INSET has developed teachers
			understanding of how and when to use
			a range of representations and
			manipulatives through following the
			White Rose Scheme of objectives and
			support materials. The INSETs have also

	introduced teachers to the Ready to Progress materials which we shall be using carefully throughout the remaining part of the Spring Term and the Summer Term to support catch up of specific targeted children.
	Throughout lockdown, PA has signposted and supported teachers to ensure children have been given differentiated work — using White Rose — in order to follow the same, consistent approach. As well as this, we have discussed as a staff, offering greater depth challenges and NRICH challenges to more able pupils to ensure they have continued to develop their deeper thinking and more able mathematical minds.
Purchase manipulatives to effectively support each year group. Ensure all staff are confidently using manipulatives regularly to support learning.	Catch up funding of £2735 has been used to audit and purchase a wide range of manipulatives and hands-on resources to be used to develop children's understanding and learning. Due to lockdown, only the children who have been in school have been able to access these but as and when children return to school, we shall be developing the use of these much further within lessons to support and ensure contextual understanding. Progress is not the end goal from representation usage but the development of

	understanding to enable progress in the
	future.
Ensure consistency across the school in	
mastery approach.	
	In September 2020, PA lead a whole
	staff live lesson to develop the theory
	and understanding, once again, of a
	mastery lesson. We looked at variation,
	repetition and use of stem sentences as
	well as representations to support
	learning. This was aimed at an adult
	level but staff were then encouraged to
	use the White Rose Premium resources
	and their knowledge of the Ready to
	Progress and NCETM materials
	signposted to support the design of
	their lesson.
Provide further training on using	
manipulatives and monitor the provision	
of use.	PA has been involved with discussions
or use.	and remote meetings with Year 2 to
	ensure they are clear on the ways we
	plan and deliver lessons here at
	Elburton. The meeting consisted of two
	new to the school Y2 teachers and we
	discussed, planning, resourcing,
	mastery theory and resources which
	could be used to support the feedback
	given from book scrutiny and SLT
	discussions.
	PA will support the further training on
	using manipulatives and representation
	to support Mastery training into the
	future. The EYFS have been signed up to
	Tatare. The E113 have been signed up to

	a mastery programme entitled 'Building
	Firmer Foundations for mathematics'
	and they have begun their journey
	towards mastery this Spring Term. PA is
	attending alongside NG (Y3) the Maths
	Mastery Hub meeting to work alongside
	other schools who have been on the
	mastery journey to sustain and build
	firmer understanding in the teaching of
	mastery. This information will be
	disseminated to all staff across the
	Summer Term through INSETs and
	coaching (if possible)
THE FUTURE AND SUMMER TERM	
THOUGHTS	
<u></u>	THE FUTURE AND SUMMER TERM
	<u>THOUGHTS</u>
	On the return to school, we shall begin
	to focus, once again, on the journey
	towards Mastery, using manipulatives
	and representations to support
	mathematical thinking as well as how to
	design the curriculum in Maths for the
	rest of the year ahead.
	Data will inevitably fall, once again, but
	the Summer Term will be a time for all
	staff to work together to ensure
	children have not fallen too far behind.
	Progress has not been evident in hard
	data during the Spring Term – for
	obvious reasons – but we shall be
	assessing children upon return and
	using this data to inform the Summer
	Term catch up programme using TAs,

		Teachers and all staff to support in this	
		using the Ready to progress resources	
		as well as other resources made	
		available to us.
