

A blank world map showing the outlines of the continents. The map is oriented with North at the top. There are several horizontal lines across the map: a solid line representing the Equator, and two dashed lines representing the Tropic of Cancer and the Tropic of Capricorn. There are also several short horizontal lines placed in the oceans and on the continents, intended for labeling. These lines are located in North America, South America, Europe, Africa, Asia, Australia, and the Arctic region.
